JavaScript

PROFILE

I am **Mahnoor Tufail**, a BS Software Engineering student with a **3.52 CGPA** and a strong foundation in **full-stack web development**. Skilled in **React.js, Next.js, Node.js, Express, and MongoDB**, I specialize in creating modern, responsive, and performance-driven applications that deliver seamless user experiences. Passionate about continuous learning, I aim to apply my technical expertise and creativity to innovative projects in software development.

EXPERIENCE

CYBITRONIX TECHNOLOGIES • AUGEST 2024 – PRESENT
Full stack developer

Islamabad KPK. Pakistan (Remote)

Contributing to full-stack development of scalable applications, focusing on performance, modern UI/UX, and seamless backend integration.

WISE360 SOLUTIONS • APRIL 2025 – JULY 2025
Software engineer

Abbottabad KPK, Pakistan (OnSite)

Developed **SignaForm** (drag-and-drop form builder), **Sinapsity**, and multiple enterprise apps. Delivered responsive React UIs, real-time features, and production-ready optimizations.

FIRNAS TECH • JAN 2025 – MARCH 2025
MERN Stack Developer

Abbottabad KPK, Pakistan (OnSite)

Worked on full-stack web applications with secure authentication, third-party API integrations, and dynamic content handling.
.
HISKY TECHNOLOGIES • SEP 2024 – OCT 2024
MERN Stack Developer

Sargodha Punjab, Pakistan (Remote Internship)

Built three full-stack apps with authentication, API integration, and responsive design, enhancing usability and functionality.

TypeScript
Angular.js
Full Stack Developer
Responsive Design
Build APIs
API Integration
Database Design

English
Urdu

KEY ACHEIVEMENT

Certification
• Full Stack Web Development Internship – hiSkyTech (Sep 2024)
• Web Development Internship – TechWithWarriors (Oct 2024)

Enhanced Performance and User Experience
Optimized API calls using Axios to improve load times by 30%.
Implemented lazy loading for images and components, reducing
initial page load time.

Worked on Real-World Projects
Contributed to a MERN stack project by integrating secure
authentication and state management.Collaborated with cross-
functional teams to enhance UI/UX for a full-stack e-commerce
platform.I developed SignaForm (a drag-and-drop form builder with
analytics) and contributed to Sinapsity, along with multiple other
real-world applications.
